GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

Read—the following papers :—

From the Superintending Engineer, VI Circle, dated 10th November 1898, No. 1524 M.D.

No. 301 I.

Note by the Chief Engineer for Irrigation.

The Superintending Engineer, VI Circle, submits a revised estimate, amounting to Rs. 2,190, for constructing a surplus weir at left flank of Athalai tank, Periyár project, involving an excess of Rs. 390 under works over the estimate sanctioned in G.O., No. 1000 I., dated 12th November 1897. The excess is attributed chiefly to the use of a larger quantity of new rough stone as the old stone available at site was found to be much less than anticipated and to the presence of water in the foundation necessitating baling and the use of surki in the concrete.

2. In the circumstances stated, the revised estimate may be sanctioned.

3rd December 1898. (Signed) W. HUGHES,
Chief Engineer for Irrigation.

Order—No. 69 I., dated 11th January 1899.

The following revised estimate is sanctioned in supersession of the estimate sanctioned in G.O., No. 1000 I., dated 12th November 1897 :—

Capital Expenditure not charged to Revenue.

C. ENGINEER FOR IRRIGATION.
11 NOV 1898
No. 137 MD

SIR,

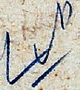
ENCLOSURES. 2
1 Original Estr.
1 Revised Estr. with report, Com: statement &c complete.

I have the honor to submit for sanction of Government a revised estimate amounting to Rs 2190. in supersession of that sanctioned for Rs 1800 in G.O. No 1000 I dated 12th November 1897, for constructing a surplus weir at left flank of No 1141 Athalai tank, Madura Taluq.

2. It was originally estimated that 3,411 c.feet of old stone at site would be available for the work, but the actual quantity found on execution of the work was 800 cfeet, thus necessitating a larger use of new

new stone. Water was found in the foundation which entailed baling, and also the use of Soorkhi in the concrete which has increased the rate for this item.

3. The Executive Engineer also used specially selected stone for the coping which has caused a slight excess.

I have the honor to be
Sir
Your most obdt. servt.


P. J. Bodley Lieut: Col: R.E.
Supg. Engineer, 6th circle.
